EASTERN CARIBBEAN MARINE MANAGED AREAS NETWORK (ECMMAN) PROJECT
Fact Sheet

**Funding Agency:**
The German Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety (BMUB)

**Grant Awardee:**
The Nature Conservancy (TNC)

**Project Length:**
Four years (2013 – 2017)

**Beneficiary Countries:**
6 OECS countries of St. Kitts and Nevis, Antigua and Barbuda, Dominica, Saint Lucia, St. Vincent and the Grenadines and Grenada

**Financials:**
4 Million EURO

**ECMMAN Project Objectives:**
Declare new MMAs and strengthen existing MMAs;

Build strong constituencies for sustainable livelihoods and ocean use;

Improve and update an Eastern Caribbean Decision Support System (ECDSS) that provides accessible decision making tools and incorporates current ecological, socio-economic, and climate change data; and

Institute sustainability mechanisms to support the MMA network, including regional political commitments and actions, collaboration mechanisms on marine and coastal resources, and sustainable financing.

---

**ECMMAN Implementing Partners**

The Nature Conservancy (TNC) will work on the designation of new marine protected areas (MPAs), strengthening of existing MPAs, the development of the data platform for storage and management of MPA data and the mobilization of additional financial resources.

OECS Secretariat, Social and Sustainable Development Division, will implement the livelihood program that will fund projects via individual grants and assist with the mobilization of additional financial resources.

UNEP/SPAW-RAC acting through the Caribbean Marine Protected Areas Managers (CaMPAM) network will assist with the strengthening of marine protected areas via a small grants program.

Caribbean Regional Fisheries Mechanism (CRFM) Secretariat acting through the Caribbean Network of Fisher Folk Organizations (CNFO) will strengthen fisher organizations through capacity building initiatives.

PCI Media Impact will handle aspects of the public awareness, education and outreach components of the project.

Supported by:

Federal Ministry for the Environment, Nature Conservation, Building and Nuclear Safety

based on a decision of the German Bundestag

## Fact Sheet

### Project Components

<table>
<thead>
<tr>
<th>Beneficiary Countries</th>
<th>Project Components</th>
<th>Indicators of Success</th>
</tr>
</thead>
</table>
| **Antigua & Barbuda** | 1. New MMAs declared and existing MMAs strengthened | • 6-10 New Marine Managed Areas are established  
• At least 10 existing Marine Managed Areas are strengthened |
| **Dominica** | | |
| **Grenada** | 2. Strong constituencies for sustainable livelihoods and ocean use are built | • Fishers/coastal communities’ capacity and support for marine conservation are increased  
• At least 3 alternative livelihood demonstration projects are under implementation |
| **Saint Lucia** | | |
| **St. Kitts & Nevis** | 3. An Eastern Caribbean Decision Support System (ECDSS) is improved and updated | • Existing accessible and user-friendly, spatial information for Decision Support is updated  
• Practical information and decision-making products are developed  
• ECDSS capacity building and long-term maintenance is implemented |
| **St. Vincent & the Grenadines** | | |

### Beneficiary Countries

- Antigua & Barbuda
- Dominica
- Grenada
- Saint Lucia
- St. Kitts & Nevis
- St. Vincent & the Grenadines
